Course Provided : Delta Infotech, Tanuku, AP

## Projects

- **AGROVISTA**  
A technology-driven platform that enhances agricultural productivity through smart crop and disease prediction, and an integrated e-commerce ecosystem for farmers.
- **AI HEALTH PREDICTOR**  
The application predicts the potential health conditions based on users symptoms and provides personalized recommendations for medication, diet, and exercise to support better health management.
- **MARTMATE**  
An intelligent retail management system that enhance food safety, minimizes waste with expiry tracking and streamlines products transactions for a seamless shopping experience.
- **DRIVELOCK PRO**  
DriveLock Pro is an AI-powered vehicle safety system that provides real-time lane and pothole detection while enabling seamless parking pre-booking and lock access.
